We're excited to have launched the new imabi app for all students this week. The app aims to support students with their well-being and signpost them to any support they may need. This could be linked to support for mental health, exam anxiety etc, along with offering a function where students can report concerns direct to the school's safeguarding team should they wish.

Please download the app. Search 'imabi Inspire' on App Stores. Students should sign in with their school username and password.

We feel this will be a great benefit to students and are proud to be part of this new initiative. Students using the app so far have told us how having access to reporting and trusted information makes such a difference to how they feel and increases the likelihood of them asking for help.
