<b>Examination Board</b>	<b>Eduqas - Graded Pass – Distinction*</b>

Problem solving skills, organisation skills, analytical skills, communication skills and creative ability are attributes that Design and Technology subjects help you develop and improve. These are all attributes that employers are wanting from their employees! Help your future self out and opt into a D&T subject.

Can you say YES to any of the following? If so Hospitality & Catering could be the course for you!

- Have you enjoyed cooking in KS3?
- Are you someone that enjoys being in the kitchen at home?
- Are you interested in what it is like to work in a professional kitchen?
- Do you want to broaden your knowledge of cooking techniques?
- Do you enjoy working on your own but also see the benefit of being part of a team?
- Are you thinking about a career in the hospitality or catering industry?

#### **The course**

This course is ideal for students who want to learn about this vocational sector and the potential it can offer them for their careers or further study in one of the largest industries in the country. It is a practical led course where students will gain various skills in problem solving, researching, presentation, team working and the preparation and delivery of professional food.

The qualification is assessed in two units:

#### **Unit one - The Hospitality and Catering industry**

This unit is externally assessed using an online e-assessment. Short and extended answer questions based on applied situations are used to test the students' knowledge of the hospitality and catering industry.

#### **Unit two – Hospitality and Catering in action**

This unit is internally assessed and puts particular emphasis on the skills related to the preparation and carrying out of events and functions. The students apply their learning to safely prepare, cook and present 2 nutritional dishes.

***Please note that students cannot choose more than two Design and Technology qualifications***
