

WE ARE THE WORLD'S LEADING SMALL SATELLITE MANUFACTURER

We offer end-to-end space mission design, build, test, launch & operate capability and services to our global customers.

We have over 30 years of expertise in delivering small satellite operational missions in short timeframes and on budget for a range of space applications. We have a pragmatic and professional approach and we pride ourselves on working closely with our customers to achieve mission success.

OUR VISION

Pioneers of the use of new technologies on satellite products and services - executing market-leading small satellite missions ahead of others, clearly differentiating us from our competitors and satisfying our customers by meeting their expectations.

HOW DO I APPLY?

For the majority of our early careers opportunities you will be able to apply between October - December and for successful applicants assessment days or interviews will follow January - March.

All applications made must be sent via our online portal: www.sstl.co.uk/careers

START YOUR CAREER IN OUTER SPACE!

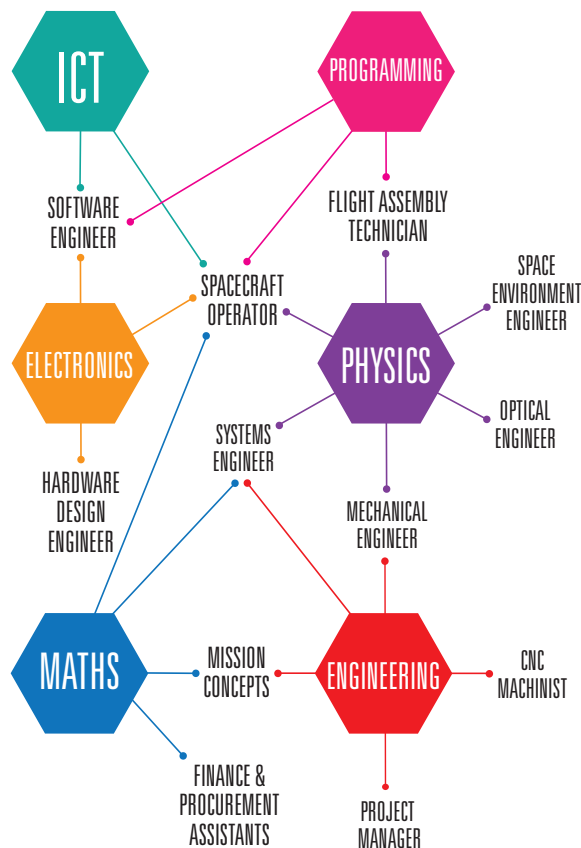

START YOUR CAREER IN OUTER SPACE!

At Surrey Satellite Technology Ltd (SSTL) we are committed to developing our early careers talent and are looking to recruit and develop people into the stars of tomorrow.

We offer several avenues which will help you start your career here at SSTL with us:

- Work Experience
- Apprenticeship Programmes
- Internships
- Industrial Year Placements
- Graduate Programme

These are some of the typical career opportunities at SSTL associated with different qualifications:

WORK EXPERIENCE

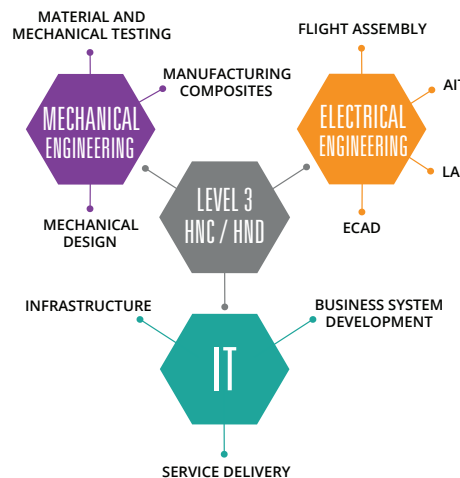

Our one week Engineering Work Experience Programme takes place over the summer holidays and offers students the opportunity to gain first hand experience within different Engineering areas, to help them decide on what they would like to study further.

Applications must be made via our online portal: www.sstl.co.uk/careers and open in February.

For any enquires about our Engineering Work Experience Programme or other work experience opportunities contact: placements@sstl.co.uk

APPRENTICESHIP PROGRAMME

Our Apprenticeship Programmes are a great opportunity to gain a recognised qualification whilst developing on-the-job experience, to build a career in Engineering or IT. We offer Apprenticeships that allows you to gain your Level 3 qualification all the way through to your HND if you wish.

You will attend college 1-2 days a week and have the opportunity to be mentored on-the-job by some of our most experienced employees, gaining new knowledge, skills and understanding. More importantly on completion of your chosen apprenticeship you are guaranteed a job with SSTL!

INTERNSHIP AND INDUSTRIAL YEAR PLACEMENTS

Our Internships (up to 3 months) and Industrial years placements offers more exposure to the company and the way we work.

During your placement with SSTL you will gain an in depth knowledge of an area relevant to your studies and get to work alongside some of our most experienced employees.

For any enquires about our Internships or Industrial year placements contact: placements@sstl.co.uk

GRADUATE PROGRAMMES

Our two year Graduate Programme expands on the skills and knowledge gained through your degree, whilst giving you the opportunity to build your on the job experience.

During the programme you will receive training and mentoring by some of our most experienced employees whilst completing three placements lasting 8 months.

Two of your placements will be complimentary to your degree and the third placement will give you the opportunity to explore another area of the business e.g.:

- **Physics** - Optical Systems & AIV & Design, Optical Mechanical Design, Thermal
- **Mechanical / Aeronautical** - Mechanical Design, Mechanical Systems, AIT
- **Electrical or Electronics** - On-Board-Data-Handling, Imager Electronics, Power, Mechanisms
- **Aerospace**, Space Science/Systems Engineering - Systems, Mission Concepts

For any enquires about our Graduate Programme contact: jobs@sstl.co.uk
