

Edgbarrow School

Year 13

L3 Single IT Vocational Course

Curriculum Intent

The aim of IT and Computer Science is to develop young people who are digitally literate, resilient and have problem solving skills. Students will develop transferable skills to use across the curriculum, and in the wider world.

○ What am I studying this year and how and when will I be assessed?

Knowledge & Skills	Time of Year	Assessment	Homework
Unit 6: Application Development	September	Coursework Unit	Students are expected to catch up on any missing coursework assignments from this year 12 unit in their own time or in supported after school sessions.
Unit 1 and/or Unit 2 Examination retake if required	September - May	January Exam / May Exam	Students to revise for this examination in their own time or in after school supported sessions and/or lessons with EPI
Unit – TBC – with student input Theory and then practical	September - April	Coursework Unit	Students are expected to complete their class notes for all teachers after each lesson. For their coursework units, students should be completing coursework at home independently to be meeting their regular (weekly/ fortnightly) deadlines for each teacher.
Unit 15: Game Design & Prototyping Theory and then practical creation of a game	September - April	Coursework Unit	

Students will be submitting work to Google Classroom throughout the year and feedback will be given both verbally and through private comments on Google Classroom to the students or in the form of marked exam questions where appropriate.

Revision Guide

Please use the textbook and resources on Google Classroom to aid revision for the external exams.
